\$1,590

\$1,790 w counter

**Model MA-500**  
**Automatic Belt-less feed**

Discover the fastest, safest way to open all sizes, types and volumes of mail with the AccuSlitter<sup>®</sup> Electric Mail Opener - made exclusively by Staplex<sup>®</sup> in the U.S.A.. Using patented technology, the AccuSlitter makes a laser-like, precision slit across the underside of envelopes - not completely through.

The result: Mail that's quickly and safely opened without cutting off envelope tops or damaging contents!

Simply feed each envelope to the unique slitting mechanism of the MA-1 and in less than 2 seconds, it's opened and ejected to the mail receiving tray.

Model MA-500 has a fully automatic **belt-less** feed (a Staplex<sup>®</sup> exclusive!) and is available as Model MA-500C with an optional electronic LCD counter.

The AccuSlitter<sup>®</sup> protects your mail. It's your assurance for clean, safe mail every day. Mail is doubly safe: No shreds and the precision slit does not allow contents to fall out accidentally.

Model MA-1 and MA-500 AccuSlitter are attractive, super-quiet and super-efficient! Complete with mail receiving tray, they are engineered to work like magic with satisfaction guaranteed. Get one today!

**Open mail faster without cutting**  
**off envelope tops or damaging contents!**

For opening larger quantities of mail, inquire about Staplex **Model MA-500** AccuSlitter with automatic feed.

# Staplex<sup>®</sup> Model MA-500 AccuSlitter<sup>®</sup> Electric Mail Opener with Automatic Belt-less Feed

**Faster** - Now automatically open your mail at the rate of 250 envelopes per minute without cutting off envelope tops or damaging contents!

Model MA-500 AccuSlitter<sup>®</sup> obsoletes tedious conventional methods and substantially increases productivity for all mail opening all sizes, types and volumes.

It's so easy to use. Simply place envelopes on the feed stack and in seconds all are automatically opened, ejected and stacked in the mail receiving tray.

**Eliminate toil and mess.** No more waiting-orders, correspondence, checks and all mail is processed at top speed. The MA-500 AccuSlitter<sup>®</sup> upgrades your mail opening to state-of-the-art sophistication.

**Safer** - The magic behind the AccuSlitter<sup>®</sup> is a precision slitting mechanism engineered to exact tolerances for lifetime performance.

With laser-like precision, the Staplex<sup>®</sup> MA-500 slits across the underside of the envelope-not completely through.

The result: Clean, opened mail with no envelope shreds, no damaged contents, no messy paper "fallout" dust.

Secondly, the slit is positioned so that the contents cannot accidentally slip out. No lost contents when mail is being distributed.

**Quieter** - Use the AccuSlitter<sup>®</sup> anywhere. Its whisper-quiet operation is great for mailroom or receptionist's desk. Solid construction combined with extra sound-deadening materials make the AccuSlitter<sup>®</sup> super quiet! And quiet machines mean more productivity for you.

**Stronger** - Built with heavy -duty components throughout, the reliable MA-500 AccuSlitter<sup>®</sup> can handle full day work loads. just plug it in and zip through a handful or truckload of mail. Use a cluster of AccuSlitters for low-cost mail extracting stations. The MA-500 is fast enough to open large volumes, affordable enough to have in every department.

**Standard features** - The AccuSlitter<sup>®</sup> gives you so many features including large capacity mail receiving tray, envelope thickness adjustment, safety shield for slitting mechanism, special AccuLoy blade, stylish non-glare, impact resistant housing with contoured edges, 8 foot (2.4 m) grounded power supply cord, thermal overload protection, built-in resettable circuit breaker, lighted on/off switch and a touch of Staplex<sup>®</sup> magic!

Add the guaranty of satisfaction from Staplex, whose decades of experience in engineering and manufacturing innovative office equipment is recognized worldwide
